HECHINGER & CO.'S

Are Shown in Scores of Handsome New Cuts!

Weavers' wits were never more versatile in producing attractive 400m effects. Skill in wholesale tailoring has made marvelous progress in recent years. No better evidence is needed than a critical inspection of ready-to-wear Clothing made for them. There is a nicety of detail, a careful-ness of fluish, a symmetry of cut that denotes master minds and master hands. This not only has reference to their Clothing, but also to their other different departments. Nowhere will you see so handsome a display of Gentiemen's Furnishing Goods, fine Shirts, Hats, Collars and Ties as Hechinger &

"HOUSEKEEPERS."

According to Judge Richie of Louisville

County Judge Charles G. Richie this orning notified Secretary Charles Merriwether, of the City and County Demo cratic Executive Committee, that ther which required that every election offi er be a housekeeper, and that he had been luformed that this provision had been overlooked by both the Republican and Democratic Committees in making ut the jists forwarded to him

When seen about the matter this morn ng Judge Richie said that his attention had been called to the fact that a number of unmarried men were serving as elec-

ion officers.

He said that this provision of the is had been overlooked for some time, and that he had looked the matter up and had found that the law was mands on the subject, and that every eleofficer has to be a housekeeper. Richie said that will no doubt cause many changes in the lists and will create much confusion, but, as it is the law, there is nothing left for him to do but M. C. Russell & Son sell Daisy Patent

THE CIVIL SERVICE LAW.

Statements Showing Cost to Government , of the Mugwamp Hambag.

Wishington th. C.: Times.

Through a more or less esteemed evening contemporary of The Times the officials of the Civil Service Commission have attempted to correct so-called exagger-steed statements reparding the cout of Civil Service examinations. As they have taken exception to the assertion that the average cost to the Givernment was 2414 for each appointment, I quote from the esteement as follows:

As they have taken exception to the assertion that the average cost to the Givernment was 2414 for each appointment, I quote from the esteement of colors as the one held to supply the piece of Supervising Architect of the Treasury for instance, would cost fifty limes as much as an examination to supply a number of people to a minor grade. The examination itself is more expensive, and in one wet the whole cost is charge-hie to one appointment, while in the other it is divided among a large number of appointments.

Admitting the correctness of the show, we ascertain that the exact cost of the examination held recently to fill the positions of Supervising Architect of the Treasury was 81,139 50. The people have cause to thank God that each appointment who not averaged that sum, although that may be the expense per appointee in the future to the summary of the summa
